# Strategies for Inclusive Design in Response to the Emergency Transition to Remote Teaching

Connect with your students and assess what level of technology that they have available (*Bandwidth*).

- "Do you have access to a computer at home?
- "Do you have reliable internet?
- "Can your computer handle video streaming or video conferencing?"

Determine how quickly you need your students to respond (*Immediacy*).

Select the appropriate tool that allows each student to have access (*Bandwidth*) and meets your need for students to respond (*Immediacy*).
